

Ahmed Mohamed

Frontend Developer with React

Summary

As a Trainee at ICPC MINYA UNIVERSITY COMMUNITY, my work intertwines with my Information Technology studies at Minia University, shaping a strong foundation in both theoretical knowledge and practical application.

I leverage my C++ expertise, problem-solving skills, and leadership to build eco-conscious tech solutions that benefit communities and protect the environment.

As a Frontend Developer Trainee in the Ministry-sponsored Digital Egypt Pioneers Initiative, I bridge theory and practice through hands-on React work. Over the 24-week internship.
